

ORACLE®

Java SE 6 Programmer

Web Servers Glassfish, Tomcat, Weblogic.

Projects

Project:	Digital Account Opening
Company	Emirates NBD Dubai
Technologies	Java Core (Java 8), Spring Boot, PostgreSQL , Micro services
Duration	Sept 2017-May 2019
Role	Software Developer

Multichannel banking is introducing end to end instant account opening process through mobile application to be submitted at customer end. Our effort is to encourage only New to Bank (NTB) salaried individual entities to open salary and saving variant accounts (CASA) through our mobile application instantly. This process will bring more efficiency to build relationship with customers and will enhance the customer experience with reduced TAT for account opening process.

Responsibilities:-

- ✓ Working on new requirements under given time frame based on client needs.
- ✓ Estimating efforts and impacts on the application per change and development.
- ✓ Creating the micro services for the individual layers and exposing via swagger specification.
- ✓ Implementing Authentication and Authorization using OAuth 2.0 authentication for security
- ✓ Used API gateway for secure access to Services.

Projects

Project :	Rule Based Cash Sweep
Company	Sapient(GS Client)
Technologies	Java Core (Java 8), Spring Boot,Oracle
Duration	Nov 2017-Aug 2018
Role	Senior Associate

Rules-Based trading engine to allow clients to create custom MMF sweep program with full system integration.

Excess Balance assessment of client accounts for automated sweep. Customizable trade allocation rules engine and investment guideline monitoring. Daily sweep activity reporting.

Responsibilities:-

- ✓ Working on new requirements under given time frame based on client needs.
- ✓ Estimating efforts and impacts on the application per change and development.
- ✓ Leading the module Cash Sweep Allocator.

Projects

Project :	Global Repository Services
Company	Genpact
Technologies	Java Core (Java 6), Spring Core, Oracle
Servers	Apache Tomcat
Duration	May 2017-Nov 2017
Role	Consultant

CME Global Repository Services provides multi-asset class reporting solutions to help market participants to comply with their Global Regulatory Reporting requirements.

We enable clients to meet their requirements through trade reporting services including the CME European Trade Repository (CME ETR), CME Swap Data Repository (CME SDR), CME Canadian Trade Repository (CME CTR), and now CME Australia Trade Repository (CME ATR)

Responsibilities:-

- ✓ Working on new requirements under given time frame based on client needs.
- ✓ Estimating efforts and impacts on the application per change and development.
- ✓ Leading the module.

Projects

Project :	Prime Collaboration Assurance
Company	Scarlet Wireless India Pvt. Ltd At CISCO(Client)
Technologies	Java Core (Java 6), Spring Core, Struts 1.x, Hibernate, Oracle
Servers	Apache Tomcat
Duration	Dec 2016-May 2017
Role	SSE

Cisco Prime Collaboration helps enable rapid installation and maintenance of Cisco Unified Communications and Cisco TelePresence components as well as the provisioning of users and services, substantially increasing productivity and lowering operating expenses. By significantly reducing the complexity in performing moves, adds, and changes, the solution facilitates delegation of these tasks. This helps network operators to optimize IT resources and further reduce total cost of ownership.

Responsibilities:-

- ✓ Fixing bugs ,Change Requests and working on new requirements under given time frame based on client needs.
- ✓ Estimating efforts and impacts on the application per change and development.

Project :	SRIMS(SINGLE RESOURCE INVENTORY MANAGEMENT SYSTEM)
Company	British Telecom
Technologies	Java Core (Java 8), Spring Core, Hibernate, Orient NOSQL Graph Database, Oracle

App Servers	WEBLOGIC 12c
Duration	Oct 2014-Nov 2016
Role	JAVA Programmer

Next Generation Inventory Management System Using Dynamic Service Designing.

Responsibilities:-

- ✓ Work on a configurable transformation enterprise project from Scratch involving Service, Logical and Physical Inventory Management, used for Routing, Service Designing and interacting with other enterprise systems over JMS and Web Services with an end goal to provide a telecommunication service to the Customer/Enterprise.
- ✓ Understand all the capabilities and business logic of the existing system, written in PL/SQL | CRAMER(an AMDOCS inventory management solution) , and redesign and reimplement them in Java and NOSQL graph database replacing the legacy ORACLE database keeping in mind not to change the existing interactions with the other systems.Supporting Team to find errors and bugs(if any) and creating solution which minimizes throughput and optimizes performance.
- ✓ Ability to outperform in any role be it Software Development, Software Designing, Build and Deployment, Unit Testing.
- ✓ Work closely with the designers and framework team to write technical design documents, develop and implement frameworks required for the project.

Project	: Events Manager
Company	CenturyLink Technologies India Private Ltd
Client	CenturyLink Technologies,US
Technologies	Java,JSP, Servlet, Struts 1.x,Oracle,JDBC,multithreading,Collections.
App Servers	WEBLOGIC 10.3
Duration	Sep 2013 – Oct 2014
Role	JAVA Programmer

Event Manager (EM) serves as a repository for all actions and notifications in the order workflow. Order lifecycle is spread across 4 broad systems EM is a State machine in NetworX which reflects the correct Order status in the order life cycle by consuming variety of events from other systems such as QOA.

- QOA – create a quote and process it
- EM
- OES – Billing
- PM Workflow – Project Manager which creates/executes tasks along the lifecycle

EM is used in 4 different applications

- OI&M
- SDP
- Networx
- Wholesale

CenturyLink Control Networx is CenturyLink's self service web portal providing Networx customers with the ability to quote and order services on-line. In addition, CenturyLink Control Networx enables users to track the status of their orders, manage their inventory, submit and track repair issues, and view

and pay invoices. Did associative development, debugging and testing for several requirements under Network Portal.

Responsibilities:-

- ✓ Fixing bugs, Change Requests and working on new requirements under given time frame based on client needs.
- ✓ Estimating efforts and impacts on the application per change and development.
- ✓ Supporting Team to find errors and bugs (if any) and creating solution which minimizes throughput and optimizes performance.
- ✓ Provide clarifications to the application development team throughout the development process

Project : Crime and Criminal tracking Network System (CCTNS)

Company	Wipro InfoTech
Client	Ministry of Home Affairs (India), National Crime Record Bureau
Technologies	Spring WEB MVC, Core Java, JSP, Jasper Reporting, JDBC, Data Structure.
Web Servers	Glassfish 2.1
Duration	May 2011 – Sep 2012
Role	Java Developer

Crime and Criminal Tracking Network Systems (CCTNS) is a state of art project aimed for comprehensive and integrated system for enhancing the efficiency and effective policing at all levels and especially at the Police Station level through adoption of principles of e-Governance.

Some of the Modules worked on are as following:-

- Unidentified DeadBody and Unnatural Death: is a written document prepared by the police when they receive information about the some death related cases and information.
- Created CAS(CoreApplicationSoftware)module associative development, debugging and testing and Admin Screens and Registers/Reports(Jasper Designs in ireport 3.0.0).

Responsibilities:-

- ✓ Involved in designing effective and scalable solution to the Business Problems through technical skills.
- ✓ Executing unit test cases and ensuring functionality works as desired.
- ✓ Writing codes using the above technology mentioned and working with team and management to ensure better product.
- ✓ Understanding and implementing the functional and domain at the time of performing the design.

WORK EXPERIENCE:

Duration	Designation / Role	Organization
Nov-2017-Aug2018	Senior Platform Level 1	Sapient Global Markets
May 2017 –Nov 2017	Consultant	Genpact
Dec 2016 –May 2017	SSE	Scarlet Wireless India Pvt. Ltd.
Oct 2014 –Nov 2016	Java Associate	BT E-Serv India Pvt. Ltd.

Sept 2013-Oct 2014	Software Engineer	CenturyLink Technologies India Private Ltd.
May,2011-Sept,2012	Engineer Trainee	WIPRO INFOTECH

EDUCATION

Degree	Year	Percentage	Institute
B.Tech(Electronics)	2006-2010	66.92%	AIET,Lucknow

Extra Curricular Activities & Hobbies:

- ✓ Playing Cricket(Won BT TSO Cricket Tournament 2015).
- ✓ Watching movies and playing chess.
- ✓ Listening to Music

Strengths:

- ✓ Adaptive to work environment.
- ✓ Self Motivated
- ✓ Never give up Attitude

Personal Profile

Name : Vikram Raney

Father Name : Ghanshyam Das Raney

Mother Name : Rakhi Raney

Sex : Male

Marital Status : Single

Nationality : Indian

Permanent Address : Unit 12,City Shoe Building, Opposite ENBD Alfahidi Branch, Bur Dubai-Dubai

Date of Birth : 07/08/1988

Declaration:

I do hereby declare that the information stated above are true and correct to the best of my knowledge and belief and I bear the responsibility for the correctness for the above mentioned particulars.
